

## Brick One Light Kit

**SKU:** 910-0001

A compact and powerful variable color LED light that can withstand the elements

## PRODUCT DESCRIPTION

The Litepanels Brick builds on the legacy of the original MiniPlus which revolutionized the lighting industry. Now more robust, Bi-Color and IP-65 rated, the Brick is a perfect on-camera solution for ENG camera operators on the go or who need full spectrum lighting during wet conditions.

Following the Litepanels familiar rectangular form factor, the Brick is designed with premium quality, high CRI, surface mount LEDs and paired with custom designed TIR optics. These tightly binned LEDs and fine-tuned optics provide the Brick with superior color reproduction and a light output that is up to four times brighter than the original MiniPlus. This higher intensity results in a longer throw and illuminates a wider area, allowing the Brick to compete with strong exterior light sources or illuminate a larger area effectively. The Brick is available in a One light kit with accessories and protective waterproof case for safe transport. Accessories for the Brick are also available separately.

## TECHNICAL SPECIFICATIONS

<b>Range</b>	Brick
<b>Beam Angle</b>	36
<b>Comparative Output</b>	100W Tungsten
<b>Width</b>	37.9 cm   14.92 in
<b>Height</b>	30.8 cm   12.13 in
<b>Depth</b>	17.5 cm   6.89 in
<b>Weight</b>	3.9 kg   8.6 lb
<b>Gel Filter</b>	Half White Diffusion Gel
<b>Max Power Draw</b>	19W
<b>Optics</b>	Custom TIR
<b>Battery Option</b>	No
<b>Wireless</b>	No remote
<b>Rear LCD Screen</b>	Waterproof hard case with custom polyethylene foam (made of recycled material)
<b>IP Rating</b>	IP65
<b>Power Supply</b>	100-240 VAC
