

Gemini 1x1 Hard Dual Array Light Kit

SKU: 900-3730

PRODUCT DESCRIPTION

Producing over 6000lux @ 10ft/3m (Daylight), the Gemini 1x1 Hard Dual Array Light Kit provides exceptional power and versatility. Complete with 2x Gemini 1x1 Hard panels, dual yoke, bracket, and hardware to support two Gemini light fixtures in a 1x2 configuration for use as a single large light source measuring approximately 12.6 x 25.5". This array includes a steel TVMP mount for traditional light stands and clamps with a 5/8" Baby pin. This mount can be also used in a heavy duty light stands and grip with a 1 1/8" Jr receiver by removing the T-handle.
