

## Honeycomb 60 Deg, Gemini

**SKU:** 900-3602

## **PRODUCT DESCRIPTION**

Litepanels' Honeycomb Grids, offer a convenient means of controling the LED light beam. Constructed of an extruded powder-coated aluminum frame with aluminum honeycomb material. In practice the grids, which slide into the Gemini's accessory rail system, function much like barndoors to control light spill.

- Adds Directional Control
- Eliminates Light Spill
- Slides into the front of Litepanels Gemini
