

Inca 6C

SKU: 906-2005

The performance of a traditional Fresnel,
with all the benefits of LED technology

PRODUCT DESCRIPTION

The tungsten-balanced Inca 6C; provides the controllability and light-shaping properties inherent in a Fresnel light, with the advantages of LED technology including DMX-controllability. The Inca 6C draws a small fraction of the power of conventional Fresnel fixtures, is now 50% brighter than the previous version, and like the rest of the Sola Series, it provides Litepanels' famous full-spectrum quality light.
