

Lykos+ BiColor Soft Box

SKU: 935-3195

Professional lighting on the fly

PRODUCT DESCRIPTION

The Snapbag Softbox from DoP Choice gets its name from its fast mounting design. No speedring is required to mount this softbox onto the Lykos LED Panel making it simple to use and quick to set up. Its velcro straps secure the snapbag softbox in place. The Snapbag's high-intensity silver fabric interior maximizes output and folds flat when not in use. The included diffusion cloth attaches via its velcro lined perimeter and softens the lights output creating wrap-around quality of light that makes talent look great.

Top Highlights

- Softens light output
- Snaps into Place
- Reflective Silver interior
- Vecro straps secure the Snapbag Softbox in place
