

Snapbag Softbox Gemini 1x1 with removable baffle

SKU: 900-3722

PRODUCT DESCRIPTION

The Snapbag Softbox for Gemini 1x1 from Litepanels fits directly on the light without a speedring and softens the specular quality of the LEDs while its silver interior maintains the highest possible output. The removable baffle spreads the light's beam to all corners of the front diffusion to help create an even soft source. The Snapbag gets its name from its pop-up design, has a removable front diffuser, removable baffle and accepts grids.

- Softens the LEDs output
- Can be used with optional cloth set and Snapgrid for added control
- Included Baffle spreads the light to all corners of the included diffusion cloth
- Velcro Straps secure to the Light
- No Speedring required
