

Snapbag Softbox Gemini 2x1 Hard with removable baffle

SKU: 900-0041

Softens the LEDs output

PRODUCT DESCRIPTION

The Snapbag Softbox for Gemini 2x1 from Litepanels fits directly on the light without a speedring. The Snapbag softens the LEDs, while its silver reflective interior maintains the highest possible output. The removable baffle spreads the light's beam to all corners of the front diffusion to help create an even, soft source. The Snapbag gets its name from its pop-up design. It has a removable front diffuser, removable baffle and accepts grids.

KEY FEATURES

- Softens the LEDs output
- Can be used with optional cloth set and Snapgrid for added control
- Included baffle spreads the light to all corners of the included diffusion cloth
- Velcro straps secure to the Light
- No speedring required
