Sola 6+ Daylight Fresnel

SKU: 906-2024

The performance of a traditional Fresnel, with all the benefits of LED technology

PRODUCT DESCRIPTION

The daylight-balanced Sola 6+™ provides the controllability and light-shaping properties inherent in a Fresnel light, with the advantages of LED technology including DMX-controllability. The Sola 6+ draws a small fraction of the power of conventional Fresnel fixtures, is now 50% brighter than the previous version, and like the rest of the Sola Series, it provides Litepanels' famous full-spectrum quality light.
