

## Sola 6+ Daylight Fresnel

**SKU:** 906-2024

The performance of a traditional Fresnel, with all the benefits of LED technology

## PRODUCT DESCRIPTION

The daylight-balanced Sola 6+™ provides the controllability and light-shaping properties inherent in a Fresnel light, with the advantages of LED technology including DMX-controllability. The Sola 6+ draws a small fraction of the power of conventional Fresnel fixtures, is now 50% brighter than the previous version, and like the rest of the Sola Series, it provides Litepanels' famous full-spectrum quality light.

## TECHNICAL SPECIFICATIONS

|                           |                                         |
|---------------------------|-----------------------------------------|
| <b>Range</b>              | Sola                                    |
| <b>Color Temperature</b>  | Daylight                                |
| <b>Beam Angle</b>         | 16 to 67                                |
| <b>Comparative Output</b> | 400W HMI                                |
| <b>CRI Daylight</b>       | 95                                      |
| <b>Width</b>              | 28 cm   11.02 in                        |
| <b>Height</b>             | 25 cm   9.84 in                         |
| <b>Depth</b>              | 38 cm   14.96 in                        |
| <b>Weight</b>             | 4.13 kg   9.1 lb                        |
| <b>Gel Filter</b>         | Optional Accessory                      |
| <b>Max Power Draw</b>     | 104W                                    |
| <b>Optics</b>             | 6" / 15.24cm dia Fresnel Lens           |
