

Studio X3 Tungsten 100W

SKU: 960-3302

Fresnel 130mm / 5" Ø

PRODUCT DESCRIPTION

Talent Light with Natural Quality

Litepanels Studio X LED Fresnels, engineered by world renowned broadcast lighting professionals Quartzcolor, deliver high-performance, directional, bright white light with precision spot to flood beam control and consistent quality.

Natural talent light with perfect skin tone rendering is achieved with high output COB LEDs to produce superior white light. With no variation in quality at any dimming level from 0-100%, Studio X Fresnels perfectly match ambient and practical set lighting to show talent in a naturally realistic light.

The Studio X3 Tungsten (3,200K) 100W Fresnel has a 5" lens with a wide spot-to-flood beam angle range of 16°-56°. The fixture output is similar to a 500W traditional tungsten Fresnel. Advanced thermal management ensures 50,000+ hours of LED engine life, while individual burn-in and calibration tests ensure quality and consistency.

With high-quality, single source wrap-around illumination, Studio X is the perfect choice to light your talent – naturally.

The Studio X range is available for special order in selected regions only. Please use our Project Enquiry form for more information.

TECHNICAL SPECIFICATIONS

Range	Studio X
Color Temperature	3,200K
Beam Angle	16 to 56
CRI Tungsten	>90
Weight	5.3 kg 11.68 lb
Max Power Draw	100W maximum
Optics	Fresnel 130mm / 5" Ø, low expansion borosilicate
Remote Control	DMX in and through 5-Pin XLR, Mini-USB
Wireless	No
Mounting Method	Yoke with lateral thrust bearing and lock off knob, Jr Pin [28mm / 1 1/8"]
IP Rating	IP20
