

Studio X5 Tungsten 200W

SKU: 960-5302

Fresnel 250mm / 10" Ø

PRODUCT DESCRIPTION

Talent Light with Natural Quality

Litepanels Studio X LED Fresnels, engineered by world renowned broadcast lighting professionals Quartzcolor, deliver high-performance, directional, bright white light with precision spot to flood beam control and consistent quality.

Natural talent light with perfect skin tone rendering is achieved with high output COB LEDs to produce superior white light. With no variation in quality at any dimming level from 0-100%, Studio X Fresnels perfectly match ambient and practical set lighting to show talent in a naturally realistic light.

The Studio X5 Tungsten (3,200K) 200W Fresnel has a 10" lens with a wide spot-to-flood beam angle range of 16°-67°. The fixture output is similar to a 1KW traditional tungsten Fresnel. Advanced thermal management ensures 50,000+ hours of LED engine life, while individual burn-in and calibration tests ensure quality and consistency.

With high-quality, single source wrap-around illumination, Studio X is the perfect choice to light your talent – naturally.

The Studio X range is available for special order in selected regions only. Please use our [Project Enquiry form](#) for more information.

TECHNICAL SPECIFICATIONS

Range	Studio X
Color Temperature	3,200K
Beam Angle	16 to 67
CRI Tungsten	>90
Weight	12.7 kg 28 lb
Max Power Draw	200W maximum
Optics	Fresnel 250mm / 10" Ø, low expansion borosilicate
Remote Control	DMX in and through 5-Pin XLR, Mini-USB
Wireless	No
Mounting Method	Yoke with lateral thrust bearing and lock off knob, Jr Pin [28mm / 1 1/8"]
IP Rating	IP20
